Contractor/Employer
Plumbers / Pipefitters 189

Re: **Drug-Free Safety Program Annual Training and Testing**

Dear Contractor:

NCI is glad to be the provider of Drug-Free Safety Program services for the Mechanical Contractors Association of **Central Ohio (MCACO) and the Plumbers / Pipefitters Local 189**. This letter is to provide you with important information about your program.

As you may know, the MCACO and Local 189 have implemented a comprehensive drug-free workplace program. The program is the exclusive means by which members may be trained and tested. **In order to stay in compliance with the collective bargain agreement program**, NCI is contacting each contractor to provide information and arrange for the **annual testing and training of members**.

Several dates have been selected for testing, employee training and supervisor training of members that are employed. Below are the dates, time, and location for testing:

Location – Local 189 Union Hall

August 1st – 7:00am to 9:00am Employee Training

August 1st – 9:00am to 11:00am Supervisor Refresher Training

August 8th – 7:00am to 9:00am Employee Training

August 8th – 9:00am to 11:00am Supervisor Refresher Training

An RSVP is Required for scheduling for both classes

Every employer is encouraged to take advantage of these pre-arrangements.

If you have 15 or more individuals to be tested and/or trained, NCI can be scheduled to perform testing on-site.

Please determine what type of arrangement is best for you, and contact NCI at the number above or email Johnp@nursingcorps.com to RSVP for the class.

Thank you for your attention to this matter. We look forward to serving you.

Yours truly,

John Pipo
